COUNCIL RESOLUTION OMC-2026-182

Moved: Councillor Whitehouse; **Seconded:** Councillor Tapp Coutts

Councillor Toni Tapp Coutts moved a Motion that the Community Grants Application Form and Guidelines be reviewed and updated before the 2026 release.

CARRIED 5|2

Discussion

Councillor Tapp-Coutts moved to review and update the Community Grants application form and guidelines, citing concerns that the process had become outdated and repetitive, with the same organisations receiving grants repeatedly. It was proposed that the assessment panel should include one Council Officer, 1 Elected Member, and 2 Community Members to enhance transparency.

12.2 PUBLIC QUESTIONS

COUNCIL RESOLUTION

Moved: Councillor Glass; **Seconded:** Councillor Palmer

Councillor Anjali Palmer and Councillor Kathy Glass moved a Motion that:

1. Council reinstates Agenda Item 12 to allow questions from ratepayers
2. Council amends its motion OMC-2026-131 to reinstate the 30 minutes question time prior to the

Ordinary Meeting of Council

3. Any query from ratepayers is presented to the entire Council to discuss and determine the appropriate responses as under the Local Government Act 2019 the entire Council is responsible for the decisions made and actions taken by Council.

LOST 3|4

Discussion

Councillor Glass spoke in support of the motion stating that Public Question Time provides ratepayers with a direct, respectful, and transparent opportunity to raise concerns, ask questions, and seek clarification on matters affecting the community. It was noted that reinstating would strengthen relationships between Council and the community by promoting openness, transparency, accountability, and community participation, consistent with the principles of the *Local Government Act 2019*. Councillor Glass emphasised that Council decisions are made collectively and that responses to matters requiring formal positions should reflect the views of the full Council. The motion was presented as a means of ensuring community members feel heard, respected, and engaged in local governance, and Councillors were encouraged to support the reinstatement of Public Question Time as a demonstration of Council's commitment to the community it serves.

Councillor Palmer spoke in support of the motion stating "This Notice of Motion seeks to restore meaningful opportunities for community participation in Council meetings and reinforce the principles of open, transparent and accountable local government.

The recent changes to Council's meeting procedures have significantly reduced the ability of ratepayers and residents to engage directly with their elected representatives by:

- removing agenda item 12, which previously enabled questions relating to items before the Ordinary Council Meeting;
- limiting Public Question Time to written questions only; and
- providing discretion for the Mayor to determine whether submitted questions will be answered.

While orderly and efficient meetings are important, they should not come at the expenses of democratic participation. Local Government is the level of government closest to the community. It should encourage respectful dialogue, public scrutiny and meaningful engagement with those it represents.

The *Local Government Act 2019* establishes clear expectations that Councils operate transparency and remain accountable to their communities.

Section 21 states that the principal role of a Council is to act as a representative, informed and responsible decision-maker in the interests of its constituency and to develop a strong and cohesive social life for its residents.

Section 22 requires Councils to provide for the interests and well-being of individuals and groups within their area and to plan and deliver services for the benefit of residents.

Section 24 requires Councils to provide open, responsive and accountable government, to be responsive to the needs, interests and aspirations of the community, to place a high value on service to its constituency, and to act at all times in the best interests of the community as a whole.

Section 44 recognises that each elected member has a responsibility to represent the interests of all residents and ratepayers and, importantly, to facilitate communication between the community and the Council.

These legislative principles recognise that community participation is not an administrative inconvenience but an essential component of effective local government.

Importantly, the Local Government Act vests decision-making authority in the Council collectively-not in any one individual. Decisions made by Council are the responsibility of all elected members. It follows that

questions raised by residents regarding Council businesses should be available to the entire Council, allowing all the members the opportunity to hear community concerns, contribute to discussion where appropriate, and collectively determine the most accurate and complete response.

Restoring Agenda Item 12 and reinstating the 30-minute Public Question Time would not diminish the efficiency of Council meetings. Rather, these measures would strengthen transparency, accountability and public confidence by ensuring residents continue to have genuine opportunities to engage directly with their elected representatives.

A healthy democracy relies on informed communities and accessible elected representatives. Respectful public questions and robust discussion should be encouraged, not restricted. By restoring these opportunities, Council demonstrates its commitment to the principles of openness, accountability and community participation that underpin the *Local Government Act 2019*.

Amend recommendation 3: That all questions submitted by ratepayers be provided to the full Council, with responses determined by Council where they relate to Council policy, governance or decisions, and referred to the CEO for response where they relate to operational matters, consistent with the *Local Government Act 2019*."

In discussion, Councillors acknowledged that opportunities already exist for members of the public to raise issues and ask question, with responses provided during the session prior to the meeting or taken on notice where required. However, Councillor Glass noted that public participation is not formally recorded and that Councillors are not always aware of the responses provided to questions taken on notice, and expressed the view that greater transparency would allow Councillors to better understand community concerns and the responses being provided.

It was suggested that the term "Open Forum" may be more appropriate than "Public Question Time", as it would allow community members to make comments, express concerns, or provide feedback without necessarily asking a formal question. It was noted that Council could listen respectfully to these views without being required to take immediate action.

Councillors also discussed the timing of public participation within the meeting agenda. It was suggested that providing an opportunity for public participation at the beginning of a meeting would allow Councillors to hear community views before considering agenda items and making decisions. This was seen as beneficial in ensuring Councillors are aware of community concerns prior to debating matters scheduled for Council consideration.

It was noted that the matter will be referred to the policy review process to clarify definitions, consider legislative and governance requirements, seek community input, and present a revised proposal to Council.

COUNCIL RESOLUTION

As a result, Council supported extending the application period to six weeks and amending the program timetable accordingly.

Councillors also discussed the composition of the Community Grants Assessment Panel. Councillor Tapp Coutts proposed broader representation within the assessment process to strengthen governance and provide greater community involvement with one Council officer, one elected member, and two or three community members to enhance inclusivity and transparency.

LOST 3|4

Discussion

It was explained that the proposal is not a new policy but an amendment to existing Council policies to ensure consistency across all policy documents. Currently some policies include a requirement for elected members to acknowledge that they have read and understood the policy. The amendment would standardise this process across all policies and align Council's policy framework with recent changes to the Local Government Act and Code of Conduct requirements. It was noted that policy acknowledgments are common governance practice and would generally be required when a policy is amended or updated.

Councillors sought clarification whether there would be a time frame for reviewing and acknowledging policies. It was confirmed that the proposal would apply to future policy amendments rather than requiring immediate acknowledgment of all of existing policies.

Concerns were raised about the limited time available to review the document before the meeting, and a suggestion was made that consideration of the amendment could occur after Councillors had completed the scheduled training and received further information on relevant sections of the Act, Regulations and Guidelines.

17 GENERAL BUSINESS

Councillor King acknowledged the passing of two well-known identities of Katherine during the week, Jim Claire and Phillip Malcom Roney.

Councillor Tapp Coutts requested that Council remain informed about potential future data centre developments in Katherine, noting possible impacts such as water usage, noise and appropriate site selection.

Councillor Tapp Coutts also advised that Katherine Central is planning significant refurbishment works over the next 6 to 8 months, including painting, shopfront improvements and general maintenance, which would be a good news for Katherine.

Councillor Glass thanked the committee members, Council staff for their work in delivering successful Katherine Centenary celebrations, acknowledging that the events would not have been possible without their efforts and support.

The open meeting was declared closed to the public at 7:14 pm.

Statement in Support of Motion to amend Council decision on Question time

Katherine deserves the best Council.

This Notice of Motion seeks to restore meaningful opportunities for community participation in Council meetings and reinforce the principles of open, transparent and accountable local government.

The recent changes to Council's meeting procedures have significantly reduced the ability of ratepayers and residents to engage directly with their elected representatives by:

- limiting Public Question Time to written questions only; and
- providing discretion for the Mayor to determine whether submitted questions will be answered.

While orderly and efficient meetings are important, they should not come at the expense of democratic participation. Local government is the level of government closest to the community. It should encourage respectful dialogue, public scrutiny and meaningful engagement with those it represents.

The Local Government Act 2019 establishes clear expectations that councils operate transparently and remain accountable to their communities.

Section 21 states that the principal role of a council is to act as a representative, informed and responsible decision-maker in the interests of its constituency and to develop a strong and cohesive social life for its residents.

Section 22 requires councils to provide for the interests and wellbeing of individuals and groups within their area and to plan and deliver services for the benefit of residents.

Section 24 requires councils to provide open, responsive and accountable government, to be responsive to the needs, interests and aspirations of the community, to place a high value on service to its constituency, and to act at all times in the best interests of the community as a whole.

Section 44 recognises that each elected member has a responsibility to represent the interests of all residents and ratepayers and, importantly, to facilitate communication between the community and the Council.

These legislative principles recognise that community participation is not an administrative inconvenience but an essential component of effective local government.

Importantly, the Local Government Act vests decision-making authority in the Council collectively—not in any one individual. Decisions made by Council are the responsibility of all elected members. It follows that questions raised by residents regarding Council business should be available to the entire Council, allowing all members the opportunity to hear community concerns, contribute to discussion where appropriate, and collectively determine the most accurate and complete response.

Restoring Agenda Item 12 and reinstating the 30-minute Public Question Time would not diminish the efficiency of Council meetings. Rather, these measures would strengthen transparency, accountability and public confidence by ensuring residents continue to have genuine opportunities to engage directly with their elected representatives.

A healthy democracy relies on informed communities and accessible elected representatives. Respectful public questions and robust discussion should be encouraged, not restricted. By restoring these opportunities, Council demonstrates its commitment to the principles of openness, accountability and community participation that underpin the Local Government Act 2019.

Amend rec 3: That all questions submitted by ratepayers be provided to the full Council, with responses determined by Council where they relate to Council policy, governance or decisions, and referred to the CEO for response where they relate to operational matters, consistent with the Local Government Act 2019
